Average Response times

	20 users	50 users
Eyelevel	583.87 ms	1905.84 ms
On-Premises	501.85 ms	1695.85 ms

Used locust tests from <https://github.com/Practicums/agai-eyelevel-backend>.

First tested Eyelevel with 20 users and 50 users and then tested On-Premises deployment with the same configuration. All users were spawned in at the beginning of the test.
